

The NX-600

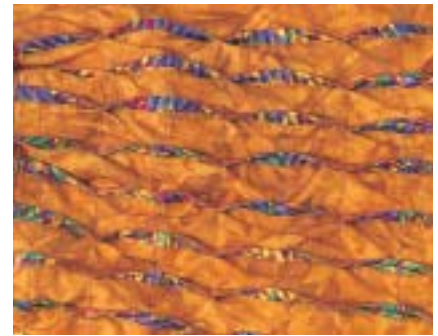

An easy to use computerised sewing machine with convenient touch-pad operation panel. Features 429 built-in stitches.

Always at your side

Easy to read display with smart functions

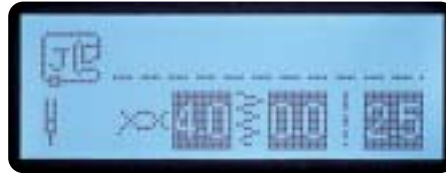

The easy to read display and computerised functions make sewing simple and more enjoyable when creating new and original projects.

LCD screen

An LCD screen displays the settings for selected stitches, stitch length and width, and the type of presser-foot to use.

Select from 429 stitches

The pre-programmed stitches are categorised in eight groups. The desired stitch is selected by using arrow keys.

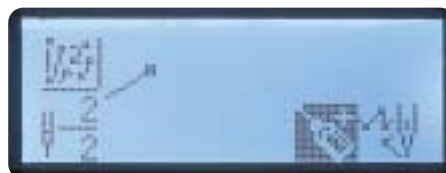

Checking machine operating procedures

Machine operating procedures can be checked by referring to the LCD display.

My Custom Stitch™

With the exclusive My Custom Stitch feature, the user can create decorative stitches on the LCD panel. These can then be saved to memory for future use.

Straightforward, user-friendly design

Ergonomic design makes the NX-600 an easy machine to use for the successful creation of your sewing projects.

Direct selection

Buttons on the control panel enable the user to conveniently select from 12 of the most commonly used utility stitches.

Error messages

Alerts the user to oversights. For example, if the buttonhole lever has not been lowered, a sound and display message will notify the user.

Programmed thread trimming

When one of the pre-programmed thread-trimming operations is selected, the thread is automatically trimmed at the end of sewing.

Customised settings

When required, the stitch width, length and thread tension can be easily adjusted.

New level of sewing enjoyment with the computerise

Front spool

The thread spool is situated on the front of the machine for easier threading.

Handy central controls

For ease of use, all operating buttons are on one convenient panel.

Extra-large sewing bed

Ample space is provided so the NX-600 can handle large articles such as bed linens and quilts.

Accessory compartment

This space neatly holds all the included accessories.

d NX-600

Functions for improved finish quality

These special functions allow you to sew secure and attractive seams - even with heavy fabrics like denim.

Six-point feed dogs

Effortlessly create smooth, accurate seams on any fabric from the lightest silks to heavy denim.

Presser-foot levelling button

Keeps the presser foot level for smooth, consistent stitching over changing fabric thicknesses, such as the start of a seam or crossing seams.

Presser-foot pressure adjustment

Stitch pucker-free seams on even the stretchiest knits by adjusting the pressure of the presser foot.

Enjoy making and decorating special projects

The included accessories enable sewing or quilting work to be more versatile and neat. The special, presser-feet make traditional quilting patterns and decorative embellishments enjoyable and easy to accomplish. A knee-lifter, suitable for piecing, quilting and garment construction is also included.

Side way feeding

Side way feeding is very helpful to attach appliques to fabric that cannot be moved around, such as cylindrical pieces. Straight stitches and zigzag stitches that sew to either the left or right are available.

Full auto upper thread tension

Whether you're working with heavy denim, thin georgette, stretchable jerseys, or unwoven felts, the computer automatically adjusts the thread tension according to the fabric thickness and stitch type.

Functions for easing difficult tasks

Special built-in functions make sewing easy and enjoyable.

Quick-set bobbin

Just drop in a full bobbin and be ready to sew immediately.

F.A.S.T. bobbin winding system

Bobbin winding is easier. Wind the thread four or five times around the bobbin, pass it through the guide slot, and press the start button. Simple.

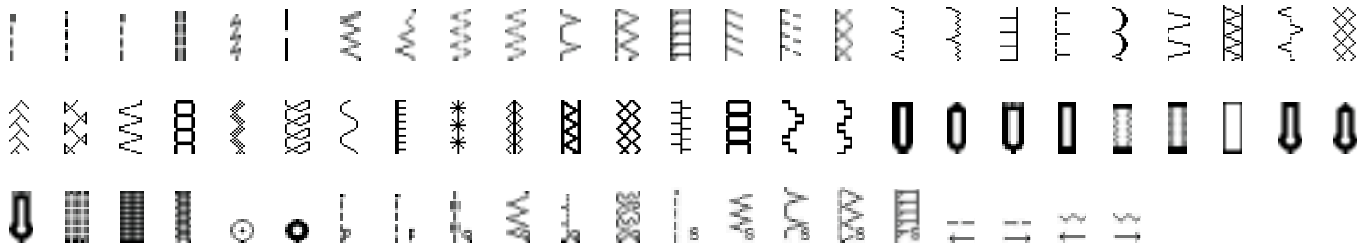

Automatic needle threader

Quick and easy needle threading.

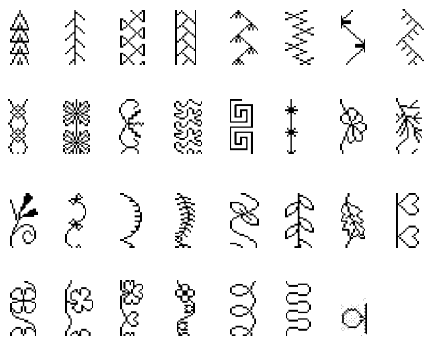

429 stitches

The built-in stitch selection is perfect for enhancing the sewing of everything from clothing to home décor.

Other enhanced functions

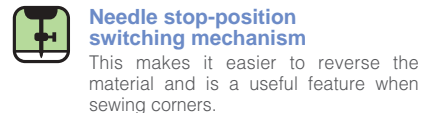

Dual LED lamp

The convenient lamp makes it easier to work with dark fabrics.

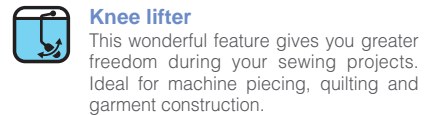

Free arm

A convenient feature that makes the sewing of trouser legs and other circular items so much easier.

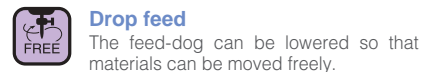

Needle stop-position switching mechanism

This makes it easier to reverse the material and is a useful feature when sewing corners.

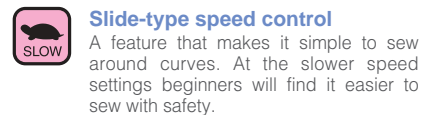

Knee lifter

This wonderful feature gives you greater freedom during your sewing projects. Ideal for machine piecing, quilting and garment construction.

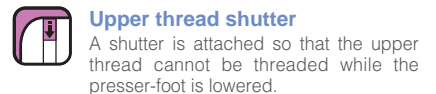

Drop feed

The feed-dog can be lowered so that materials can be moved freely.

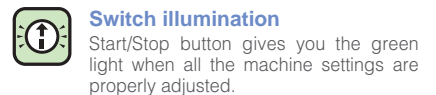

Slide-type speed control

A feature that makes it simple to sew around curves. At the slower speed settings beginners will find it easier to sew with safety.

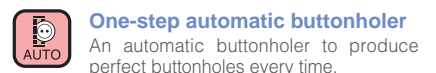

Upper thread shutter

A shutter is attached so that the upper thread cannot be threaded while the presser-foot is lowered.

Switch illumination

Start/Stop button gives you the green light when all the machine settings are properly adjusted.

One-step automatic buttonholer

An automatic buttonholer to produce perfect buttonholes every time.

OPTIONAL ACCESSORIES

Wide table

For better fabric handling when sewing and quilting.
