Print, copy and colour scan with the DCP-7040, a compact and versatile 3-in-1 monochrome laser Multi-Function Centre (MFC) with a 35-page Automatic Document Feeder (ADF). Ideal for the home office and small office, this all-in-one office companion is a space saver that does not compromise on important work-centric functions.

Featuring a rapid print speed of 22ppm, you can also achieve low running cost in the long run by using Brother's high-yield toner for frequent printing or a standard-yield toner for your regular printing needs. With all these great features and more, the DCP-7040 is truly a cost-effective and invaluable addition that's guaranteed to make your work life easier.

Achieve low running costs by using a high-yield toner if you are a heavy user. A separate toner and drum system allows you to continue using the drum for a few toner cycles so you not only save cost, but also the environment with reduced wastage. As well as having all the cost saving advantages of mono laser printing, the DCP-7040 also lets you enjoy the benefits of high quality, full colour scanning using any one of the following options:

Scan to file: You can save time by scanning documents to a pre-defined location on your computer. You can even save in multiple formats, including jpeg, pdf and gif.

Scan to e-mail: Scan your documents to your e-mail application to be sent as attached files.

Scan to OCR (Optical Character Recognition): If you need to edit a pre-printed document you can scan and automatically convert it to text, ready to edit in your favourite text editing software e.g. Microsoft® Word.

Scan to image: Scan images directly to your imaging or photo application, ready for you to save, edit or print.

Earthwatch – committed to our environment multi-function centre®.

Brother has joined forces with Earthwatch to help find solutions to some of Australia's pressing environmental challenges. Earthwatch is an international organisation which supports scientific research and education to promote the understanding and action necessary for a sustainable environment. Brother and Earthwatch will support a national network of research projects which focus on tackling climate change and the conservation of Earth's precious natural resources.

We recommend using genuine Brother consumables for quality professional prints and for peace of mind. All genuine Brother consumables are designed as part of an entire printing system and tested to ensure optimum performance and component protection.
