DCP-J715W Wireless Colour Inkjet Multi-Function Centre with 3.3" Colour LCD and Automatic Document Feeder.

The feature packed DCP-J715W incorporates wired and wireless network connectivity, advanced scanning features and a Colour LCD display into one compact, easy to use machine - allowing you to Do More.

Print professional quality documents in house with 1.5 picolitre droplet size and up to 6,000 dpi resolution. The DCP-J715W offers fast print speeds of up to 35 mono and 28 colour pages per minute.

Share the DCP-J715W with multiple users across your existing wired or wireless network, the easy set up process ensures that connection to your network is fast and simple.

The DCP-J715W offers a range of easy to use features, including an 3.3" colour LCD display, to access scan, copy and print settings from your machine, and a 15 sheet Automatic Document Feeder (ADF) for simple scanning of multi-paged documents.

Connect your camera via the PictBridge enabled USB port to preview, edit and print high quality borderless photos directly from the DCP-J715W, and save time by printing directly from the separate photo paper tray.

The DCP-J715W complies with ENERGY STAR standard, ensuring low energy consumption, low noise levels and a recycle-friendly design. All Brother inkjet Multi-Function Centres use an individual ink cartridge system. This means you only have to replace the colour that runs out instead of having to discard an entire tri-colour cartridge - reducing waste, protecting the environment and saving you money. Further more, you can return your empty ink cartridge via the Cartridges 4 Planet Ark recycling program and you will be helping to protect the environment. For more information go to www.brotherearth.com

To achieve the highest print quality, we recommend using original Brother LC-67 ink cartridges together with Brother BP71 Premium Plus photo paper.
