MFC-J220 Compact Colour Inkjet Multi-Function Centre with Fax and Media Card Centre

Print, Scan, Copy and Fax to produce professional quality documents with the MFC-J220, allowing you to Do More.

The MFC-J220 offers impressive print speeds of up to 33 mono and 27 colour pages per minute, with a professional print quality of 1.5 picolitre and up to 6,000dpi resolution.

Scan or copy bound and irregular shaped documents with the flatbed scanner: The MFC-J220's 1.9" colour LCD display makes it simple to scan to PC, email or memory card via the simple to follow menu.

Save time by printing directly from your media card without the need to turn on your PC with the MFC-J220's dedicated media card centre: simply select, preview and print the images you want using the 1.9" colour LCD display.

The MFC-J220 complies with the ENERGY STAR standard, ensuring low energy consumption, low noise levels and a recycle-friendly design.

All Brother inkjet Multi-Function Centres use an individual ink cartridge system. This means you only have to replace the colour that runs out instead of having to discard an entire tri-colour cartridge - reducing waste, protecting the environment and saving you money.

Return your empty ink cartridges to Brother for recycling and you will be helping to protect the environment. For more information go to www.brotherearth.com

To achieve the highest print quality, we recommend using original Brother LC39 ink cartridges together with Brother BP71 Premium Plus photo paper.

MFC-J220 Technical Specifications
