## A4 PORTABLE PRINTERS

### Mobile printing, wherever and whenever required

The Brother Pocket Jet range of portable printers offers four different models. They are the smallest, lightest and most effective A4 full-page mobile printing solution available\*. Whether you use a laptop or a handheld device, the Brother Pocket Jet will give you sharp text, crisp graphics, and high-quality documents wherever and whenever required.

### Connectivity

The powerful and feature-rich Brother PocketJet printer range provide USB, IrDA or Bluetooth connectivity from a number of devices such as laptops, tablet PC's and PDA/Smartphone devices.

### Suitable for a wide range of applications

Being able to produce professional looking documents immediately, wherever they are required, improves efficiency and ensures you and your company give a professional image to your customers. These compact printers have many different uses for a wide range of mobile printing applications. These include:

- Field Sales: Print updated price lists and leave order confirmations with the customer, at their premises
- Delivery and Logistics: Leave a confirmation of delivery details, or obtain a proof-of-delivery signature on a printed delivery report.
- Architects: Print updated plans "on-site" to hand to construction workers and other professionals, helping to reduce mistakes and speed up the construction process
- Field service: Leave a record of any repairs and installations with the customer, in case of future queries.

### Lightweight and compact

At just under 26cm long and 400g in weight, the Brother Pocket Jet fits easily into your briefcase or computer bag, and it can be quickly mounted in any vehicle or small work area. To ensure maximum portability, an optional long-life NiMH battery or in-car charger can be used to ensure the printer is fully charged and ready to print.
