MULTI-TASKING

WITH PRINT, SCAN,
COPY CAPABILITIES

Introducing the compact inkjet Multi-Function Centre (MFC) Series with wireless network capability.

Connect and share the wireless capable DCP-J525W across your office with print, copy and scan capabilities.

DCP-J525W

The DCP-J525W combines wireless network connectivity and an easy to navigate touchscreen LCD display with print, scan and copy capabilities.

Achieve impressive print speeds of up to 33ppm monochrome and 26ppm colour (10ppm monochrome and 8ppm colour - Laser comparable) so you do not have to wait for your documents, whilst the 1.5 picolitre droplet size and up to 6,000dpi print resolution enable you to produce professional quality documents in house.

Share resources and reduce the need for untidy cables by connecting the DCP-J525W to your existing wireless network.

Navigate the DCP-J525W's simple to use menu system and access a range of functions via the 1.9" Touchscreen Colour LCD with Touch Sensitive Controls .

Reduce your printing costs with high-yield ink cartridges. All Brother inkjet Multi-Function Centres incorporate a four-individual ink system meaning that you only replace the ink which runs out, reducing waste and saving you money.

The DCP-J525W complies with the strict Energy Star environmental standard, ensuring low energy consumption.
