MULTI-TASKING

WITH PRINT, SCAN,
COPY, FAX CAPABILITIES

Introducing the compact inkjet Multi-Function Centre (MFC) Series with wireless network capability.

Increase efficiency in your office with double-sided printing, Automatic Document Feeder, wireless connectivity and disc printing.

MFC-J825DW

The MFC-J825DW offers print, scan, copy and fax capabilities in one stylish, compact machine.

Create a range of professional quality documents in house including double-sided prints and high quality borderless images.

The machine offers impressive print speeds of up to 35ppm monochrome and 27ppm colour (12ppm monochrome and 10ppm colour - Laser comparable), so you are not kept waiting for your documents.

Print directly from your digital camera with the PictBridge port, or from your media card via the 3.3" colour touchscreen LCD display. With the new CD and DVD label printing feature, you can create labels quickly to organise your disc collection. The innovative Web Connect feature even allows you to connect to Picasa and Flickr from your MFC to download images and print directly.

Share resources across your office by connecting the MFC-J825DW to your existing wired or wireless network using simple, secure software to ensure a fast and simple process.

Reduce your printing costs with high-yield ink cartridges for a lower cost per page, and automatic double-sided printing to lower your paper costs. All Brother inkjet Multi-Function Centres incorporate a four-individual ink system meaning that you only replace the ink which runs out, reducing waste and saving you money.

The MFC-J825DW complies with the strict Energy Star environmental standard, ensuring low energy consumption.
