

Environmental Policy

Brother is a leading global brand producing quality innovative products for the IT office and sewing machine markets.

Brother International Australia carries out sales and service of Brother products and provides administrative support to importing and distribution within Australia.

Brother International Australia is committed to:

- meeting or exceeding the requirements of applicable laws, regulations and standards that relate to our business activities, including AS/NZ ISO 14001;
- ensuring that environmental management is an integral part of the business decision making processes;
- ensuring that objectives and targets are set for all our key environmental risks;
- following the Plan - Do - Check - Act cycle to ensure our environmental management system is continually improved and our targets and objectives regularly reviewed;
- undertaking our activities to prevent pollution and minimise the environmental impact of the significant aspects of our business operations; and
- providing appropriate resources and training to enable staff to conduct their activities in an environmentally responsible manner.
