TAILORED 2 YOU

Introducing Brother's latest trio of sewing machines.
From straight forward hemming and alterations to detailed dressmaking, the new **TY200A**, **TY400G** and **TY600C** sewing machines are tailored to make sewing easy from start to successful finish.

Not sure what the different sewing machines do?
Let's explore the range...

TY200A | FOR THE APPRENTICE

Brother's **TY200A** mechanical sewing machine is a basic sewing machine that is simple to operate.

Features include a time-saving built-in needle threader and 14 conveniently pre-set stitches. Designed to enhance your sewing experience, the **TY200A** sewing machine is easy to use and ideal for basic projects and mending.

Suits beginners or occasional sewists

Save time with the built-in needle threader

Includes free arm for sewing around sleeves

14 Convenient pre-set stitches

Suitable for mending

Backed by Brother's 3 year warranty and local call centre support

TY400G | FOR GENERAL SEWING

Brother's **TY400G** mechanical sewing machine is great value sewing. The included wide table simply slides on to expand the sewing workspace, ready to support your larger sewing projects including curtains.

It also includes stitches for sewing stretch fabrics making the **TY400G** sewing machine an affordable, versatile allrounder for everything from alterations through to costumes and curtains.

Save time with the built-in needle threader
