Allows the operator to perform 2 different tasks on the machine at the same time

Send the same fax message to up to 50 separate locations Stores documents for the same location in the machines memory for transmission in a single call

When receiving a single page document longer than A4 (297mm) the fax machine will automatically reduce the message to fit onto a single A4 sheet

The MFC will detect line errors during fax transmission and resend the page(s) of the document that had an error (recipient machines must share this feature for it to work) Sends a fax received in memory to another pre-programmed fax number

Allows users to remotely access their machine

Allows remote access to faxes stored in the machine

Allows users to set-up the MFC from their PC

256 shades (8 bit) of grey are available for faxing
