

QL-700 Professional Label Printer

brother.com.au

Effortless label printing for all applications

Effortless label printing - for all applications. The QL-700 uses Brother DK label rolls. Supplied on a spool that incorporates a roll guide, this ensures that the label is always installed correctly, and recognises the size of label inserted. And you get none of the alignment problems associated with printing labels in a traditional printer. So whether you are printing just one label, or several at a time, the Brother QL-700 ensures each label prints perfectly, time after time.

The versatile QL-700 offers easy to use applications, for all labelling requirements.

Key Features:

Plug and print
(no software installation required*)

Print up to 93 labels/minute and
up to 300 x 600dpi

Built-in automatic label cutter

Includes 2 rolls of labels, software
and cables

Packed with features

Plug and Print

Print labels without installing software*. There are no virus concerns and is easily shared with others.

Print labels the size you need

Create labels from 12.7mm up to 1 metre in length, using the built-in automatic cutter.

Easy to change rolls

Each roll is supplied on a spool that simply slots into the correct position in the QL-700 every time.

Up to 300 x 600 DPI print resolution

Produce easy-to-read labels with crisp text and high quality graphics.

USB Interface

Quick and easy to set up and use. The USB cable is supplied with the QL-700 as standard.

Up to 93 labels/minute**

If you are printing one or several labels at a time, the QL-700 will have them ready in just a few seconds.

* Using the built-in P-touch Editor Lite on Microsoft Windows PC's. Mac users can use the supplied CD to install P-touch Editor 5.0 software and printer drivers (available in English only)

** 93 labels/minute print speed does not apply on Editor Lite mode

Simply plug-in and start labelling immediately

The Brother QL-700 label printer offers an easy way to print professional looking labels for a wide range of uses throughout the workplace. We have made label printing easier than ever by incorporating "P-touch Editor Lite" label design software inside the QL-700. Windows users simply need to connect the USB cable, run the software from the pop-up message, then design and print your label. No software or drivers need to be installed.

1. Connect the USB cable

When connected to your PC, the QL-700 is identified as a USB flash drive and a new drive letter appears on your computer. This contains the label design software.

2. Run the built-in design software

Double-click on the P-touch Editor Lite icon to launch the label design software. As this is built-in to the QL-700 it is always available on whichever PC you connect it to.

3. Design and print your label

Simply design your label by adding text, graphics and frames and then print. No software is installed to your PC during this process.
