Save on battery costs by using the optional AC adapter.

Over 250 symbols

Include on your labels to emphasise your message.

*Batteries not included

TZe laminated labels - designed to last

Brother laminated TZe tapes consist of seven layers of materials, resulting in a thin yet extremely strong label. The thermal transfer ink is sandwiched between two protective layers of PET (polyester film), which protects the text against the effects of liquids, abrasion, temperature, chemicals and sunlight. As the labels have been tested to the extreme, you can be confident of a professional quality label that has been designed to last.

Laminated

Temperature Resistant

Water Resistant

Fade Resistant

Abrasion Resistant

Chemical Resistant

Easy Peel

Clearly identify items with a durable TZe label

Around the home, office, school, shop and other places of work, there are many uses for long lasting, durable TZe labels.
